

BWF ecoRAIL® - sheet in BWF colourLED® nr. 2 white

BWF ecoRAIL® - sheet

BWF ecoRAIL® - one kind of PC for all of Europe - now for sheets!

Two well-known innovations of BWF Profiles combined in one product: the new BWF ecoRAIL® - sheet

BWF colourLED® for homogeneous LED illumination without hotspots

- Special colour recipe for LED applications
- Transmission adapted to common LED temperatures
- No visible LED hot spots
- BWF colourLED® - properties can be achieved in every possible colour

Light-technical properties

- Up to 40% more light output compared to standard colourings without hot spots
- Can be optimised regarding the LED colour temperature
- Excellent light distribution

Feel free to order a DIN A 4 sample gratis.

BWF ecoRAIL® - the material to choose for railway applications

- Complies with all the important standards regarding fire protection
- Improved durability compared to common flame retardant materials known on the market

Dimensions: 1700 x 3050mm

Wall thickness: 3mm +/- 0,1mm

Applications

- Modern, energy-saving illumination concept with LEDs
- Realisation of very flat, homogeneously illuminated and efficient luminaires possible
- Longitudinal light lines without shadows
- Thermoformed diffusers
