

BWF reflectWHITE - highly reflectable sheets

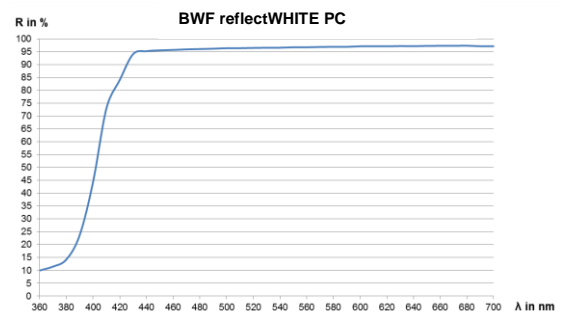

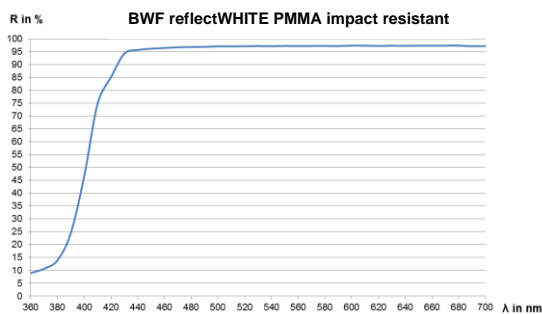

BWF reflectWHITE

Optimisation of the luminaire's efficiency

- very high reflectance
- excellent light diffusion
- excellent thermal formability
- simple, chipless punching
- natural light reflection without blue colouration
- environmentally friendly and fully recyclable

Spectral reflection:

BWF Kunststoffe GmbH & Co. KG
 Bahnhofstraße 20

Applications:

- reverse side reflector sheet combined with BWF sideLIGHT for homogeneous LED-area light in flat lighting systems with lateral LED-light injection
- thermoformed or punched reflectors from our subsidiary BWF Thermoforms for energy-optimised lighting concepts
